

Find your bangle size

A reference for round, closed bangles that slide over the hand.
For hinged, oval or adjustable designs, ask us to confirm the fit.

01 Measure a bangle that fits

Lay a well-fitting round bangle flat. Measure across the centre of the inside opening, from inner edge to inner edge, in millimetres. Exclude the metal.
Compare this inside diameter with the reference table below.

02 Check your hand, not only your wrist

A closed bangle must pass over your knuckles. Bring your thumb and fingers together as you would when putting one on. Measure around the widest part of your hand without pulling the tape tight. Share this measurement with us if you do not have a well-fitting bangle. Do not force a tight bangle on.

INDIAN SIZE	INSIDE DIAMETER (MM)
2-2	54.0
2-4	57.2
2-6	60.3
2-8	63.5
2-10	66.7
2-12	69.9

These are approximate reference dimensions, not a list of available sizes.
Size labels such as 2-4 are traditional labels, not 2.4 decimal inches.
Width, shape and opening mechanism affect fit. Confirm with URAURA if unsure.

Need help choosing?

Send us the design and your measurements on WhatsApp: +91 97697 97974.
Professional measurement by a jeweller gives the most reliable fit.

Reference: BlueStone Bangle Measuring Guide. Original URAURA layout.

Print on A4 at 100% / Actual Size. Turn off Fit to Page. Do not size from a screen.
Check the 50 mm line below with a ruler before comparing a round bangle.

 This line must measure exactly 50 mm.

2-2

54.0 mm inside diameter

2-4

57.2 mm inside diameter

2-6

60.3 mm inside diameter

2-8

63.5 mm inside diameter

2-10

66.7 mm inside diameter

2-12

69.9 mm inside diameter

Align the bangle's inside edge with the centre of the thin circle line. Never include the metal.
